EDUCATION

Rochester Institute of Technology, Dubai | Dubai, U.A.E. **2025 – 2028**
B.Sc. in Computing & Information Technologies, Minor in Ethics | CGPA: 3.68/4.0

- Courses: Web & mobile development, software development, user experience, data structures & algorithms, networking
- Events Coordinator for Student Government 2026, serving 3000+ students across 6+ events
- President for Sustainability & Social Impact Club of the Super Business Club, 2026
- Engineer at the AI & Robotics Centre, 2026

TECHNICAL SKILLS

Tools & Frameworks: HTML/CSS/JavaScript, Java, Spring Boot, React.js, Python, MySQL, PostgreSQL, Git, Vite, Node.js, Next.js, TypeScript, Pytest, Figma, WordPress, PHP, RAG
Languages: English (Fluent), Arabic (Professional)

CERTIFICATIONS

Applications of AI Engineering Course (w/ Honors) | CodePath, 2026
Adobe Creative Suite | Aptech Computer Training, 2022

RELEVANT EXPERIENCE

Develop for Good | San Francisco, Remote **May 2026 – Aug. 2026**
Software Engineer Student Volunteer

- Designed a learning platform in a multidisciplinary team of designers & engineers to provide workforce readiness resources for students with *Make An Impact Foundation*, streamlining educational delivery built on WordPress & PHP for a scalable, user-centric solution. Benchmarked by mentors from *Bloomberg* & *Hewlett-Packard Enterprise*

Hot Rides Customs Garage LLC | Dubai, Hybrid **2024 – Present**
Business Strategy & Full-Stack Systems Developer

- Engineering and deploying to **Render** a secure, internal automated **Job Card & Invoice Generator** system using **MySQL**, **Node.js**, and **React**, improving operational efficiency and cutting processing time by 90%
- Built a commercial landing page to enhance brand visibility and engagement, deployed on **Vercel**

Tabby | Remote **2024 – 2025**
Freelance Regression UX Tester

- Documenting bugs using tracking frameworks for English and Arabic versions of *Tabby*'s Android application, upholding high quality-assurance standards

PROJECTS & LEADERSHIP

"Digital Twin Lite" Simulation for Evacuation Training | *RIT Dubai Laboratory* **2026**

- Exploring autonomous agent behavior and dynamic hazard modeling within game engine frameworks
- Deploying virtual sensor pipelines to stream and log real-time simulation analytics
- Utilizing LLM APIs to translate complex simulation data into natural language coaching
- Conducting user studies to analyze human-AI trust and simulation performance; co-authoring a research paper for publication in a regional IEEE conference

Best Overall Game | *Endless Studios* **2024**
Game Designer & Sprite Artist

- Collaborated in a 6-month program to develop the **"Best Overall Game"** for our Capstone cohort, utilizing **Git** for version control and contributing to C# logic through iterative testing

LEADERSHIP & ACHIEVEMENTS

DesignAthon 2025 | Front-End Competition **2025**

- Awarded 1st Place in a competitive front-end design challenge

Hack Club | Global Satellite Hackathon Co-Organizer and Team Member ×3 **2023, 2024**

- Recognized as Most Valuable Person for coordinating multiple hackathons aimed at competitors aged 12-18. Served as a technical and creative mentor, overseeing the teens' projects and ideas from start to finish
